The McMan Family Support Program...

provides caring and professional family support to help develop positive family relations. This is achieved through coaching and modelling appropriate parenting, living, communication and behaviour management skills.

We serve...

children, youth and parents who are struggling with various issues within the family unit. Clients may be referred by the Southeast Alberta Child and Family Services Authority, Cypress County or Community Mental Health.

John struggled with issues of drug addiction and family violence. He was referred to McMan when he regained guardianship of his nine year old daughter. With the help of his Family Support worker, John was able to provide a stable and nurturing environment, develop appropriate parenting strategies and connect with many community resources. John has worked hard to run a thriving business and establish a strong bond with his daughter. He also is an active peer mentor in Narcotics Anonymous supporting others in their struggles with addictions and giving enlightening presentations to agencies that work with addicts.
